

BACHELOR OF SCIENCE IN ACCOUNTANCY

UA&P
UNIVERSITY OF ASIA AND THE PACIFIC

It all adds up

Accountancy is a profession that plays an important role in all societies. As the world moves toward global market economies, and with investments and operations crossing borders to an ever greater extent, professional accountants need a broad global outlook to understand the context in which businesses and other organizations operate.

The **Bachelor of Science in Accountancy (BSA)** of the University of Asia and the Pacific is a *five-year course* that will prepare the students to be accounting professionals imbued with ethical and moral values, a global perspective, and corporate social responsibility.

It aims to develop the following competencies: **T**echnical and technological competence, excellent **O**ral and written communication skills, **P**ersonal and teamwork skills, and inner **S**trength (**TOPS**) in the practice of values such as honesty, integrity, and transparency.

Graduates of BS in Accountancy will be equipped to work for the global market economies with a broad outlook to understand the intricacies of business. Their competitive advantage will be their exposure as they work with CEOs and accounting experts in different industries while studying. The program will also take advantage of UA&P's strength in research to enhance the students' skills in quantitative and decision analysis as they prepare to become auditors, consultants, managers, or partners in corporations or accounting firms.

Accuracy + Integrity = BSA

Our Curriculum

The **BSA Program** curriculum puts emphasis on an intensive and professional accounting study that will permit students to gain the professional knowledge required for professional competence. Such professional accounting education consists of the following:

- a. Accounting, finance, and related knowledge
- b. Organizational and business knowledge
- c. Information technology knowledge and competencies

The professional knowledge component complements the non-professional knowledge, and the intellectual, personal, interpersonal, communication, and organizational and management skills developed in General Education.

The BSA Program Curriculum

BASIC BUSINESS CORE	BASIC EDUCATION CORE	INFORMATION AND TECHNOLOGY EDUCATION

The UA&P Mentoring System

The university's mentoring program will be one major differentiating factor of the BSA program. Students will be guided as early as their first year in terms of their personal and professional formation.

Professional mentoring beginning the students' fourth year will be given by accounting experts or business practitioners to enhance the students' skills as well as prepare to them to face the demands of work during internship and even after graduation.

UA&P

UNIVERSITY OF ASIA AND THE PACIFIC

Admission and Retention Requirements

The **University of Asia and the Pacific (UA&P)** is a private, not-for-profit institution of higher learning that offers some of the most outstanding academic programs in Asia. It provides a powerful combination of liberal education and professional specialization. The formation of UA&P students is facilitated by an environment conducive to learning, qualified and dedicated teachers, a superior faculty-to-student ratio, and well-maintained facilities.

UA&P began in 1967 as the Center for Research and Communication, a think tank conducting research and offering graduate courses in economics and management. It was awarded university status in 1995 but the mission remains the same: *the fullest development of everything that is human in the individual.*
